FOR FEDERATIONS AND JCCS

Convene your whole community.

You run programs, and you hold the community together. JLife gives you one platform for both.

— The kehillah, rewired.

TWO ROLES, ONE PLATFORM

You wear two hats. JLife fits both.

Federations and JCCs are organizations in their own right. You are also the ones who bring everyone else to the table.

ROLE 1

As an organization

Everything a synagogue or school gets, for your own programs and members.

- Your own page and branded app
- Events, tickets and registration
- Announcements, videos and content to your members
- JLife Passport check-in at the door

See everything for organizations →

ROLE 2

As a convener

Bring every local organization onto one platform, so your city works as one connected community.

- Every local organization on JLife
- One community calendar for the whole city
- One Passport across every door
- Anonymized, community-wide data

How convening works →

YOUR ROLE AS CONVENER

Build an ecosystem.

You bring JLife to your city and invite every local organization in. Together, they become one connected ecosystem, with you at the center.

YOUR ROLE AS CONVENER

Rewire the community.

You bring JLife to your city and invite every local organization in. Together, they become one connected ecosystem, with you at the center.

01

Bring JLife to your city

Launch JLife as your community's platform, with your Federation or JCC as the local convener.

02

Onboard local organizations

Invite synagogues, schools, camps and partners. Each gets its own page, events and app.

03

Promote it to the community

One app to tell everyone about. Every organization's events and content in one place.

04

See the whole picture

Anonymized, community-wide data on what people do, across every organization.

COMMUNITY CALENDAR

One calendar for the whole city.

Every local organization's events, in one calendar on your website. Each organization posts once, and it shows up on their site, yours and in the app.

- Every organization in your community, in one feed
- Filters for event type, topic, audience and price
- ICS feed and WordPress (The Events Calendar) support

JLIFE PASSPORT

One identity across every door in your city.

Login with JLife Passport: one login and check-in that works at every partner in your city. People move from your JCC to a synagogue to a camp, and no one starts over.

Learn more about JLife Passport →

• COMMUNITY-WIDE DATA

See what your community *actually* does.

Across every organization on JLife, not just the ones that report back.

- What they watch
- What they listen to
- What they attend
- What they learn
- How they pray
- Milestones they reach

Anonymized and secure.

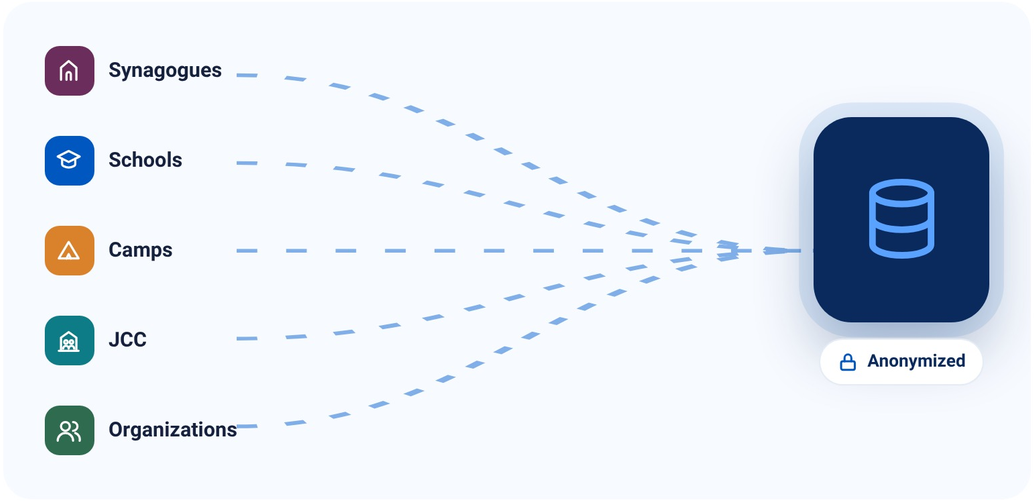

Every insight is reported at the group level, never about an individual. Personal data stays private and protected.

- Group-level only
- No individual profiles
- Securely stored

DATA YOU CAN ACT ON

See your community like never before.

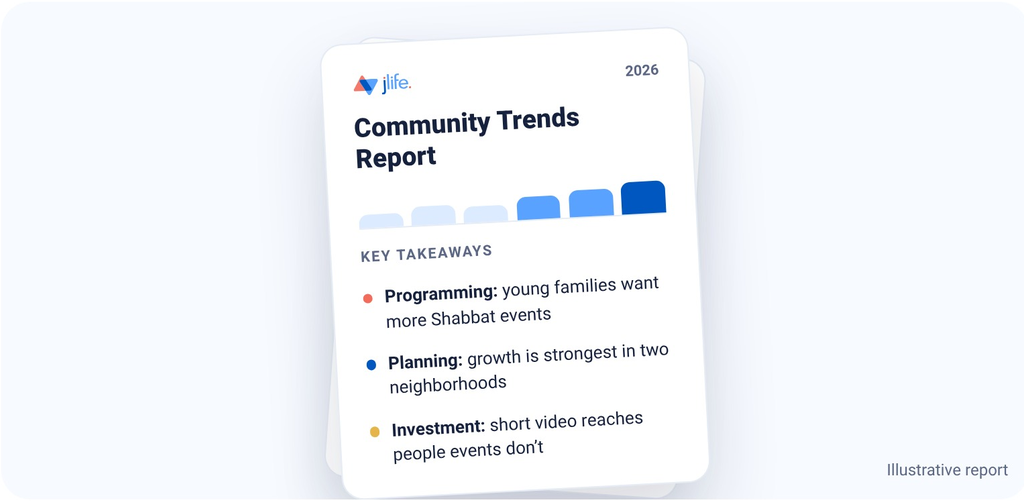

Because people use JLife for everyday Jewish life, not just sign-ups, you get a broader, more useful picture than any database alone.

ANONYMIZED AND SECURE

Comprehensive data warehouse

A secure warehouse of anonymized information on every user and registrant, across every organization. Data points you likely can't get anywhere else.

EVERY YEAR

Annual trends report

Our data scientists turn it into a clear, readable report, with takeaways for programming, community planning and philanthropic investment.

WORKS WITH YOUR SYSTEMS

Works with what you already run.

Keep your CRM, your payment gateway and your JCC systems. JLife plugs into them, so your data and your money land where they always have.

Integrate with your CRM

Events, orders and registrant data flow automatically into your primary database. Integrations run through Make.com, which connects to thousands of tools, plus a custom Blackbaud CRM (BBCRM) integration built with Brightvine Solutions.

WORKS WITH YOUR SYSTEMS

Works with what you already run.

Keep your CRM, your payment gateway and your JCC systems. JLife plugs into them, so your data and your money land where they always have.

Stripe

Authorize.net

Moneris

Use your own payment gateway

- Process payments through the gateway you already use
- Keep your existing processing rates, with no additional fees from JLife
- Reduce accounting work
- Credit cards securely vaulted with Spreedly

WORKS WITH YOUR SYSTEMS

Works with what you already run.

Keep your CRM, your payment gateway and your JCC systems. JLife plugs into them, so your data and your money land where they always have.

FOR JCCS

Compatible with Traction Rec

JLife works with Salesforce alongside Traction Rec. JLife powers your events and programs, while Traction Rec keeps handling the health club, athletics and certain classes.

Ready for prime time.
