JLIFE PASSPORT

One verified identity for Jewish life.

Sign in, register and check in across the Jewish community, with one Passport.

Get your Passport | **For organizations**

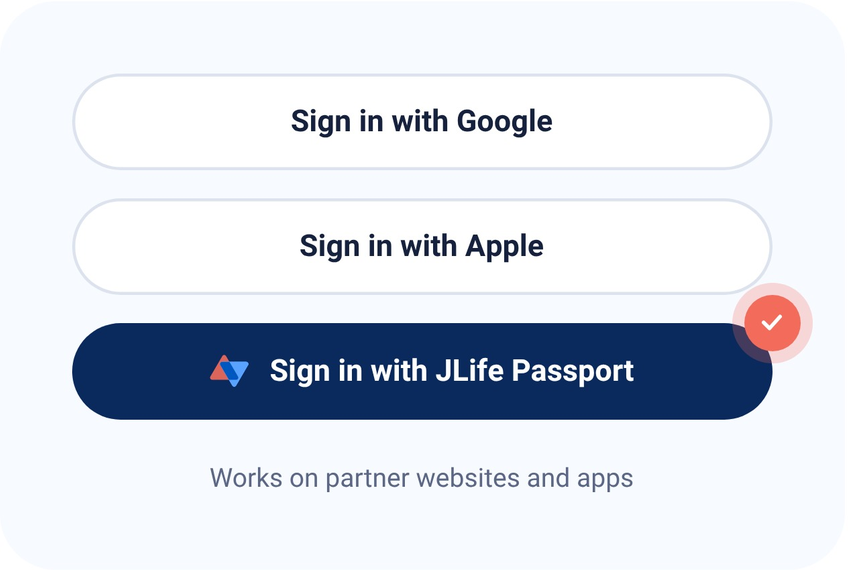

- Free
- About two minutes
- iOS and Android

THE IDEA

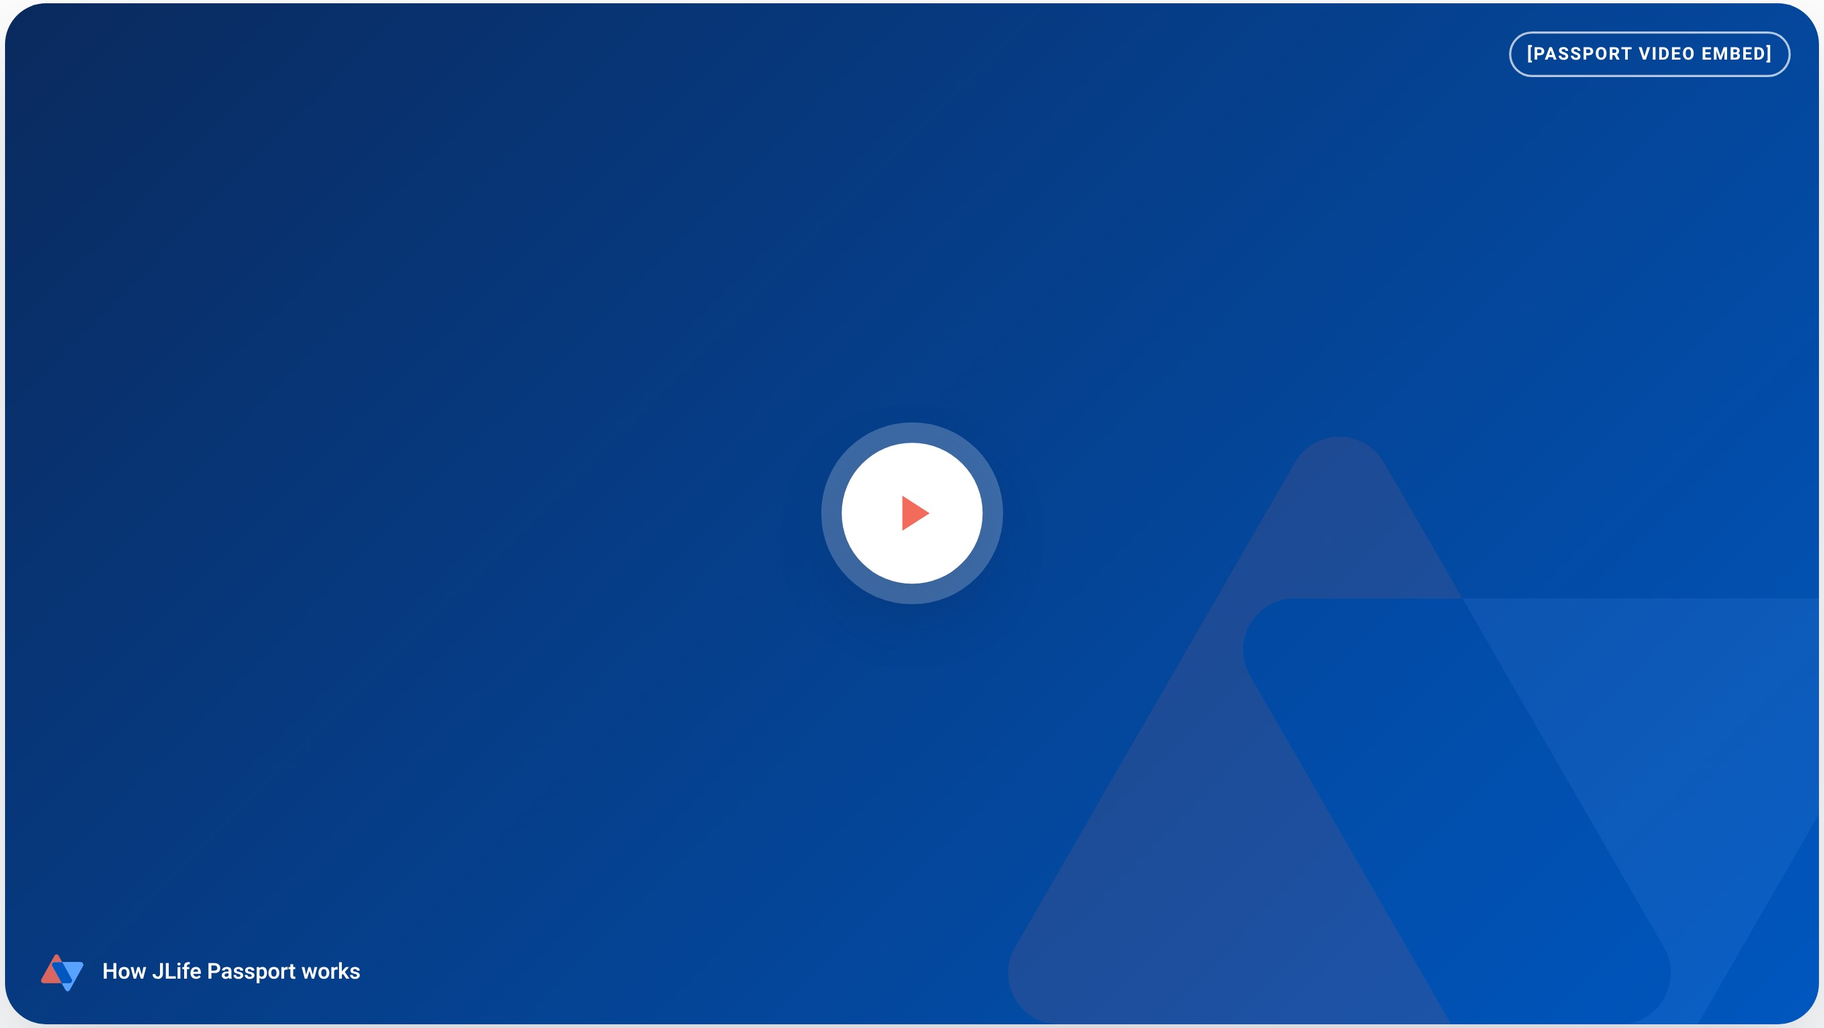

Just like Sign in with Google.

One tap to sign in to any partner organization, with the JLife account you already have. No new password, no new form.

WATCH

How JLife Passport works.

WHY PASSPORT

Simpler for people. Safer for organizations.

For people

One login everywhere

Sign in to any partner organization with one tap. No new passwords.

Verify once

Your Passport opens events across the whole community.

You control your data

Share only what you choose, and switch a connection off anytime.

For organizations

Know who is coming

Registrants are who they say they are.

Limit events to Passport holders

Hide or lock any event with one switch.

Verified, up-to-date profiles

People keep one profile current, and share it with you.

GETTING STARTED

Get yours in about two minutes.

Sign in to JLife the way you already do, then verify your phone. There's no extra account to manage.

JLife Passport

Free for everyone.

1 SIGN IN TO JLIFE

Continue with Google

Continue with Apple

Continue with email

2 VERIFY YOUR PHONE

Enter the 6-digit code sent to (•••) •••-4821

4 8 2

Passport Plus

For enhanced security

Scan a government ID once and take a quick selfie. You're verified for events that need it.

Scan your ID

Match a selfie

	PASSPORT	PLUS
Sign in with Google, Apple or email	✓	✓
Verified phone number	✓	✓
One profile, shared on your terms	✓	✓
Verified government ID	–	✓
Selfie matched to your ID	–	✓
Access to Plus-only events	–	✓

Verification powered by Stripe Identity.

EVERYWHERE

Online, and at the door.

The same Passport signs you in online and gets you into events, like a ticket in your wallet.

Online

Sign in to partner websites and apps.

In person

One QR code at every door, saved to Apple Wallet.

1 BEFORE ENTRY

Show it to security

Police or guards see a verified photo ID.

What a Passport can hold

Profile

Name · Email · Phone · Birthday · City

Verification

Verified phone · Government ID

Life stage and family

Relationship status · Children at home · Life stage

Jewish life

Denomination · Observance · Background · Synagogue

Interests

Learning · Music · Israel · Volunteering · Social

Connections

Organizations · Memberships · Events attended

Apart from verification, every field is optional, and you decide who can see it.

CONSENT

Data flows both ways, only with user consent

You decide what moves, in either direction, and can revoke it anytime.

JLife → Org

Your profile

What you choose to share when you sign in.

Org → JLife

Your activity and milestones

Trips, programs completed, Jewish moments.

Do you authorize your Israel trip organizer to share your data with JLife?

Your Israel trip organizer will share:

- ✓ **Your trips completed**
  Israel, summer 2019
- ✓ **Your trip community**
  Greater Miami

Don't allow | Allow

You can revoke this anytime in your Passport.

WHY IT MATTERS

Built for a safer, more connected Jewish community.

Passport is the shared layer that helps organizations protect their people and stay with them across a lifetime of Jewish life.

SAFER

Welcome people with confidence.

Jewish events and facilities face real security threats. A verified Passport lets communities keep their doors open, knowing who is walking through them.

- ✓ Verified photo ID
- ✓ Passport-only events
- ✓ Check-in at the door

CONNECTED

One journey, not four separate records.

Today each organization keeps its own partial record, so people get lost between camp, campus and community. With consent, Passport carries one profile with them from place to place.

FOR ORGANIZATIONS

Decide who gets in. Know who is coming.

Passport gives your team control at the door, tools for security, and a verified view of your community.

RESTRICTED ACCESS

Decide who gets in.

Limit any event to verified Passport holders. Anyone without one can get it free, in about two minutes.

Hide it
Only Passport holders can see the event.

Lock it
Anyone can see it. Only Passport holders can register.

SECURITY ADMIN TOOLS

Tools for your security team.

TEAM NOTE
Asked to check bags twice at the Purim event. Please verify ID at entry.
Security lead · Mar 14

View profile · Add note · Flag · Revoke Passport

Illustrative example. Every action is logged.

FOR ORGANIZATIONS

Decide who gets in. Know who is coming.

Passport gives your team control at the door, tools for security, and a verified view of your community.

AUDIENCE TARGETING Paid feature

Reach exactly the right people.

"I want to reach people who completed a Birthright trip."

✓ Birthright alumni · ✓ Greater Miami · ✓ Ages 22–35 · + Life stage · + Interests

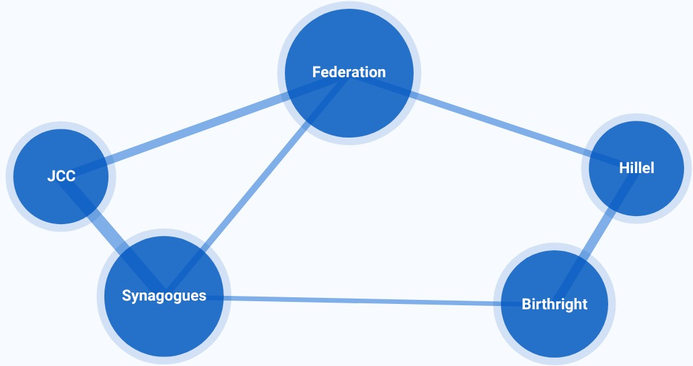

2,840 people match, all opted in

Send program

You never see who they are. Matching happens inside JLife, with consent only.

THE POWER OF THE DATA

See the whole community. Know it's accurate.

12,400
people active this year

38%
engage with 2+ organizations

Illustrative data. Circle size = active people; lines = people shared between organizations. De-identified by an independent nonprofit before it becomes community insight.

DATA PROTECTION

Your data is protected.

Verified identity only works if people trust where it lives.

Encrypted everywhere

TLS 1.2 in transit and AES-256 at rest, with rotating keys.

Shared only by you

Organizations see your details only when you choose to share them.

Secure infrastructure

Hosted on Amazon Web Services, trusted by governments and global companies.

Payments vaulted

Card details are held by Spreedly and never reach an organization.

Tested by outsiders

Independent experts are paid to find weaknesses before anyone else does.

Strict access

Peer-reviewed code and permissioned access, with every action logged.

FOR DEVELOPERS

Like adding Sign in with Google.

For systems that already support OIDC, it’s mostly configuration.

01

Add the button

Use any standard OIDC or OAuth library.

02

We register you

Client ID and callback URL. Done by hand for early partners.

03

People sign in

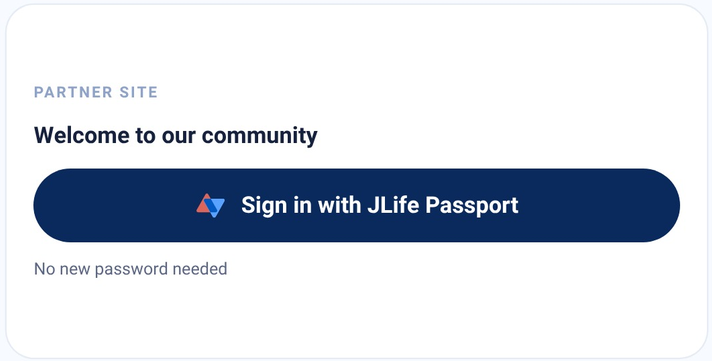

They choose what to share. Each partner gets its own ID.

04

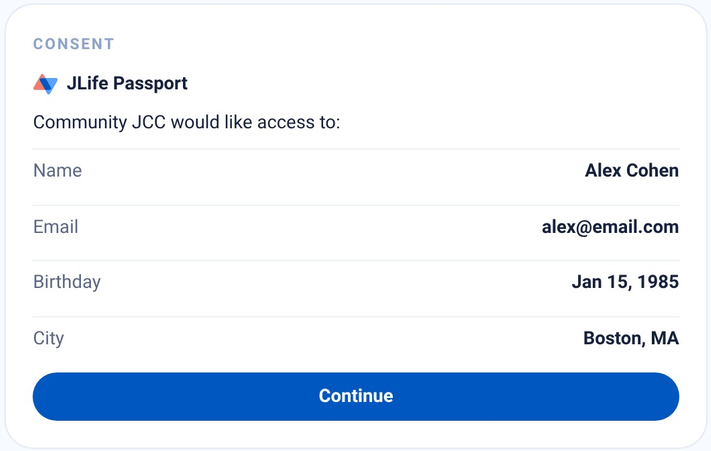

You get the result

Verify the token, then create or match the user.

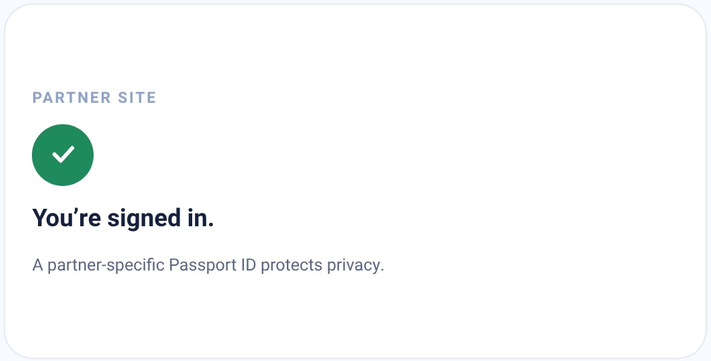

WHAT THE PERSON SEES

1 Tap “Sign in with JLife Passport.”

2 Review exactly what is shared. Disconnect anytime.

3 Back on the partner site, signed in.

Get your JLife Passport.

Free, and it takes about two minutes. Available in the JLife app on iOS and Android.

Download on the App Store
